

Burned by One of the Most Disastrous Fires in the History of the Country

LOSS MAY REACH \$200,000,000

Over Two Thousand Buildings Destroyed—Flames Rage For Thirty Hours—No Lives Lost and Only One Fireman Was Injured.

One of the most disastrous fires in the history of the country started in a dry-goods store in Baltimore Sunday morning and before it was gotten under control, 30 hours later, swept over an area one mile in length and a quarter mile wide, eating out the heart of the business section of the city. Over 2,000 buildings were destroyed, entailing a loss variously estimated at from \$50,000,000 to \$200,000,000, and throwing 50,000 persons out of employment. Fortunately, no lives were lost; a fireman from York was injured. Underwriters for the various insurance companies say the loss will probably be under \$100,000,000 and agree that the insured loss is about \$60,000,000, which they say is 75 per cent. of the entire loss.

ONE OF THE "FINEST."

Good Record of Superior James Miller, of Bedford.

WOLFENBURG, February 8.—The making and repairing of the public's roads and bridges are done by the supervisors. To meet this extreme road tax, the supervisors have been allowed to work out for or against this system, for the simple reason that the system may be all right if properly carried out, and if the system is not all right it is the supervisor's fault, knowing so little about road making, to improve any on the system.

In regard to Bedford township, I wish to say a word or two. Our taxpayers are a plain lot of heavy tax, and the taxes may be heavy, but when we stop to consider the situation for a moment we can clearly see why they become a burden. We must take into consideration the floods we have been having, the many heavy rains, etc., and, again, this winter a great deal of snow falling. So you see the supervisor is not to be blamed so very much after all.

In regard to our supervisors, I wish to say a word in behalf of James Miller, one of our outgoing supervisors. I have nothing to say against any of them, but I have to say that James Miller has been my pleasure to go over his end of the road frequently and I know something of the obstacles with which he has to contend. In the first place, he has to keep up 27 miles of road and 33 bridges.

Hon. Edward F. Kerr.

With his multitude of friends, THE GAZETTE sincerely mourns the death of Hon. Edward F. Kerr, half owner of this paper.

Being in such close touch with the deceased, we had an unusual opportunity to become familiar with his excellent traits of character. He was always kind and just, manly and self-contained.

His loyalty to his clients and his friends was known of all men and his ability as a lawyer was unquestioned. Having such a large practice, he was unable to devote much of his time to THE GAZETTE, but his counsel and advice were invaluable and his contributions to the paper forceful and effective.

Mr. Kerr took sick on Saturday and passed away yesterday morning, the cause of his death being typhoid grip. The funeral services will be held at the home of the deceased Sunday afternoon at 2 o'clock.

A complete sketch of Mr. Kerr's life will appear in next week's issue of THE GAZETTE.

A HUGE BLUFF.

The Republicans Are Again Posting as "Trust Busters."

FORAKER'S BILL.
It Has Provoked a Feeling of Alarm and Indignation—Representative "Tim" Tawney's Resolution.

Special Correspondence of THE GAZETTE.
WASHINGTON, February 9.—The principal subject of political discussion in the national capital at the present time is the so-called "trust bill," which is the bill of the great corporations in the coming presidential election.

This bill shows the lack of sincerity on the part of the Republican party in its fight against the trusts as does nothing else that has come to the surface lately. The administration has been so busy with the trusts that it has not been able to do anything to break the power of the trusts.

It is a pity that the Republican party has not been able to do anything to break the power of the trusts. It is a pity that the Republican party has not been able to do anything to break the power of the trusts.
